Welcome to the Penn State Nese College of Nursing!

We're grateful for your visit today, and congratulate you on your achievement. Admission to any Penn State campus in nursing is extremely competitive, and receiving an offer is truly an accomplishment.

This is an exciting time for you! Your college search and decision-making will determine how you spend the next four years of your life, and it's important to find the fit that feels best to you. As you visit different institutions, take time to imagine yourself on the campus, and review the curriculum, NCLEX preparation, and NCLEX pass rates. Be sure to connect with faculty and professional staff and get a feel for how you might interact with the people who will guide you toward degree completion. Take note of the resources and services available to students on campus for academic, social, health, psychological, and professional support.

Equally important is a full understanding of your obligations, the college's expectations and requirements, and the cost of your education. Our Student Success Center takes responsibility for fully informing prospective students of all aspects of our program and has identified a few areas below that have previously prompted additional questions from students and families. These are non-negotiable aspects of our program that we want to ensure you are informed of and accept before committing yourself to Penn State nursing. We label these as "vital points" because they are especially important for you to understand before committing to Penn State nursing, and for some students and families, may be reasons to make a different Penn State campus or college choice. Please review the points below in detail and ask questions now so that you aren't surprised or disappointed later. Student Success Center staff are here to help you understand all of the Penn State nursing program requirements. A summary of those vital points is listed below. As you read through this information packet, look for the red cross symbol for a more detailed explanation of each.

Again, we're so glad for the opportunity to share our program information with you. Have a wonderful University Park campus visit, and we hope to see you in the fall.

Warmly,

Kris Conn, Ph.D.

Nese College of Nursing Student Success Center

VITAL POINTS

The REALLY short version:

-  **Hershey is non-negotiable. Every student goes to Hershey for one academic year. Exceptions to this requirement are made for curricular reasons. Exceptions are not made for personal reasons.**
-  **You must have a valid driver's license and vehicle by your fourth semester to travel to clinical and capstone sites.**
-  **Capstone will entail working evenings, nights, and/or weekends while still attending classes.**
-  **College is expensive, and it is important to choose a path to nursing you can afford from the beginning. Don't count on scholarships and grants as your sole funding, as they will not cover the cost of your attendance. Have a plan for how you will pay for college before you arrive on campus and incur debt.**

Frequently Asked Questions for the General Baccalaureate Degree in Nursing

We have non-negotiable aspects of our program that we label as “vital points” because they are especially important to understand about the Penn State Nursing program. A summary of those vital points is listed below. As you read through this information packet, look for the red cross symbol for a more detailed explanation of each.

VITAL POINTS

The REALLY short version:

-  **Hershey is non-negotiable. Every student goes to Hershey for one academic year. Exceptions to this requirement are made for curricular reasons. Exceptions are not made for personal reasons.**
-  **You must have a valid driver’s license and vehicle by your fourth semester to travel to clinical and capstone sites.**
-  **Capstone will entail working evenings, nights, and/or weekends while still attending classes.**
-  **College is expensive, and it is important to choose a path to nursing you can afford from the beginning. Don’t count on scholarships and grants as your sole funding, as they will not cover the cost of your attendance. Have a plan for how you will pay for college before you arrive on campus and incur debt.**

What is the General Baccalaureate Degree in Nursing?

The Bachelor of Science in Nursing (B.S.N.) General Option is a 4-year program that combines foundational science and liberal arts courses with nursing courses that include hands-on experience in clinical settings. Graduates are prepared to sit for the national exam (NCLEX-RN) for licensure as registered nurses.

Where is the Nursing Program offered?

The 4-year B.S.N. is offered at University Park (includes Hershey Medical Center campus), Altoona, Behrend (Erie), Fayette, Mont Alto, Schuylkill, and Scranton.

Can I change campuses?

Students may not change campus locations for the nursing degree. Students must complete the program at the campus where they begin. However, students admitted to University Park will spend one year at the Hershey Medical Center campus as part of the University Park program.

NEW!! Students can select two years at Hershey when you apply!

Beginning with the 2025 application year, students will be able to select a 2+2 option on the Nursing application. With this option, years one and two will be completed at University Park while years three and four will be spent entirely at the Hershey Medical Center and surrounding area. Lock in the Hershey Experience x2 from the beginning and set yourself up for an incredible nursing education journey!

Is the Nursing Program accredited?

Yes, the B.S.N. program is accredited by the CCNE:

Commission on Collegiate Nursing Education (CCNE)

One Dupont Circle, NW

Suite 530

Washington, DC 20036

202-887-6791

How competitive is the Nursing Program?

Admission is competitive. In a typical year, The Ross and Carol Nese College of Nursing receives upwards of 4,000 applications, with the intent to yield 160 students at University Park and an additional 300 students across the other campuses where the B.S.N. program is offered.

Are students admitted directly into the Nursing Program?

Yes, first-year applicants are admitted directly into the Nursing Program. Transfer students are eligible to apply to the four-year B.S.N. program at one of the six Commonwealth Campuses through a competitive entrance-to-major process. Transfer students should contact their campus of interest to discuss admission requirements.

CAMPUS	HIGH SCHOOL STUDENTS OR ADULTS WITH LESS THAN 18 COLLEGE CREDITS	PENN STATE STUDENTS OR ADULTS WITH 18 OR MORE COLLEGE CREDITS
Altoona, Behrend (Erie), Fayette, Mont Alto, Schuylkill, Scranton	First-year direct admission into the major	Must have earned C or higher in Anatomy and Physiology (or A&P I and II) and at least 9 other non-remedial credits
University Park	First-year direct admission into the major	Not eligible for admission
		Entrance to major information

When does the Nursing Program begin?

The program begins every year in the fall. There is no spring admission. However, students may elect to begin University coursework in the summer. First-year nursing students at University Park have the option to participate in the following unique summer opportunity:

- LEAP (Learning Edge Academic Program) is an optional summer program reserved for first-year students to assist with the transition to college. LEAP is an opportunity for new students to start their Penn State career in a small-college atmosphere within the larger University. Students enroll in a LEAP section of two courses with a small group, or “pride”, who live together in the same dormitory area and have an upper-class student mentor to guide them through their first semester. LEAP will complete the first-year seminar requirement. More information can be found at www.summersession.psu.edu/leap. The Nese College of Nursing does not recommend a specific LEAP section, but Nursing students may find the sections offering ENGL 15, CAS 100, HDFS 129 or STAT 200 particularly helpful in completing their degree requirements.

Will applying for the summer semester at University Park improve my chance of being admitted to the Nursing Program?

Students applying to the Nursing Program may be considered for admission to the summer session at the University Park campus; however, application to the summer session does not provide an advantage towards being accepted into the Nursing Program at University Park.

What are the admission requirements?

The following high school courses (or a college equivalent) are required:

- four years of English
- three years of science
- three years of math (algebra, geometry, or trigonometry)
- three years of social studies/art/humanities combined
- two years of a single world language other than English. Students lacking two years of the same world language must complete one course in a world language within the first two years at Penn State.

What are the average SAT or ACT scores and the average high school GPA for students offered admission into Penn State?

The ranges in the chart below represent the middle 50 percent of students offered admission to Penn State for Summer/Fall 2024 – they are not cutoffs or averages. Nursing students typically place in the upper end of these ranges. Additional information is available at www.admissions.psu.edu/apply/statistics.

GPA	University Park	Commonwealth Campuses
High School GPA	3.65-3.94	3.15-3.81

Based on an unweighted 4.0 scale

Exam	University Park	Commonwealth Campuses
SAT Scores	1320-1480	1120-1340

Scores computed based on a 1600-point scale.

ACT Exam	University Park	Commonwealth Campuses
Composite ACT	29-33	24-31

Through Summer/Fall 2025 First-Year applicants to Penn State can choose whether to submit SAT or ACT scores as part of their applications. More information can be found at <https://admissions.psu.edu/apply/statistics/>.

What is the deadline for application?

The deadline for application for the Nursing Program is December 1 and admission is competitive. Late applications are typically considered on a space-available basis only. We recommend that students strive to meet the Admissions Early Decision deadline of November 1.

Who makes admissions decisions?

Penn State admissions decisions are made through our centralized Undergraduate Admissions Office (UAO) for all Penn State campuses and programs. The Ross and Carol Nese College of Nursing does not evaluate applications. If you have questions about your application or the decision-making process, please contact the UAO by email, admissions@psu.edu, phone at 814-865-5471, or through your MyPennState account.

Is special housing available for first-year nursing students at University Park?

First-year students are required to live on campus and may be assigned to any residence hall. However, there are Living Learning Communities (LLC) that are available to students who would like to live and learn with classmates who share their interests. Students live with other members of their LLC in close-knit communities ("houses") located in the residence halls, where they have the opportunity to participate in field trips, group dinners, and other social and educational activities. LLC options are limited. Contact Penn State Housing Services www.liveon.psu.edu/university-park/living-learning-communities for more information if you are interested.

How much is tuition?

Tuition and fees and a tuition calculator are available at www.tuition.psu.edu. Consistent with other academic institutions, Penn State charges lower-division and upper-division tuition based on credits earned. Students with 59.1 earned credits will be charged upper-division tuition, which is based on the primary campus designation and the program of study. Information on these rates for the current academic year can be found at www.tuition.psu.edu/tuitiondynamic/tuitionandfees.aspx by selecting applicable state residency and campus. Tuition and fee rates are subject to change.

Are there any additional costs or requirements?

1. Nursing students must purchase a personal laptop computer to participate in classroom-based assignments and Nursing examinations throughout the program.
2. In addition to standard tuition and fees, Nursing students may expect to spend approximately \$5,000 or more throughout the program for textbooks, uniforms, curriculum support materials (such as ATI software and simulation lab supplies), and clinical compliances, which include child abuse and criminal clearances, fingerprinting, liability insurance, drug screening, a completed physical, and other costs.
3. Clinical sites require anyone working on their premises to be appropriately vetted. In the Nese College of Nursing, we refer to these requirements as “compliances”. Each May following the nursing students’ first year of enrollment, students must complete the following requirements:
 - Pass an annual physical examination, which includes one-time antibody titers, vaccination history, and immunizations. Please be aware that insurance may or may not provide coverage for these medical requirements
 - **Students must be fully vaccinated to participate in clinicals.** Required vaccinations include COVID-19 and all boosters.*
 - Complete Pennsylvania and federal criminal background checks (fingerprinting is required and students must be free of felony convictions in the past ten years)**
 - Complete Pennsylvania child abuse background checks
 - Provide proof of medical coverage (student insurance policies are available)
 - Purchase professional liability (malpractice) insurance
 - Complete the American Heart Association Healthcare Provider CPR course
 - Complete a 10-point drug test

All program requirements must be met and submitted on time each year to progress in the program.

Estimated Cost Sheet for Undergraduate Nursing Students

ITEM	2 ND Year Student	3 rd Year Student	4 th Year Student
Uniform and Clinical Items (one time)	\$524.00	-	-
Estimated Compliance Expenses (not including personal health insurance)	\$344.00	\$153.00	\$278.00
Assessment Technologies Institute (ATI)	\$971.00	\$941.00	\$941.00
ExamSoft (\$31.76 each semester, FA/SP)	\$63.52	\$63.52	\$63.52
TOTAL	\$1901.52	\$1156.52	\$1281.52

NOTE: Total does not include tuition and fees, room and board, textbooks, laptop, or a car.

**Nursing students must be fully vaccinated with boosters, including the COVID-19 and flu vaccines, or risk missing clinical and consequently earning the BSN. This is because all or almost all of our clinical sites require student nurses to be fully vaccinated and we cannot override their decisions; they're protecting their populations, you, and themselves. Sites receptive to unvaccinated student nurses may change their stance without notice. We cannot hold clinical sites for unvaccinated students or guess if facilities will lift the requirement for students. Without clinical hours, you cannot complete a nursing degree or obtain an RN license.*

***Questions regarding how criminal history affects nursing licensure should be directed to the student’s state board of nursing.*

What financial aid is available?

If you are enrolled as a degree-seeking student, you may be eligible for various federal and state grants or loans. Contact the Office of Student Aid at www.studentaid.psu.edu for more information.

Completion of the FAFSA form automatically enters students into consideration for scholarships offered by the Nese College of Nursing. Information is available at www.nursing.psu.edu/undergraduate/financial-aid.

The Nese College of Nursing does offer scholarships to selected students who meet demonstrated need and other requirements specific to funding sources. These scholarships are typically offered to students beginning their second year in the nursing program and may or may not be renewable. A few scholarships are offered to students in their first year. In order to be eligible for Nese scholarships, students must only have a FAFSA on file at www.studentaid.gov/h/apply-for-aid/fafsa. Other requirements, if needed, are emailed to students via student listserv emails or advertised in the College's newsletter. It is the student's responsibility to look into various hospitals, professional associations, military groups, community or other organizations which may also offer scholarships or low-interest loans.

Finances

College is expensive. Nursing is an expensive major. Students and families must take a hard and realistic look at the cost of tuition, housing, and supplies before committing to any institution. **Too many students arrive at Penn State without a plan for how they will pay for their education, and end up leaving in their first year with thousands of dollars of debt and no degree.** While many students receive scholarships and grant monies, these are not guaranteed, rarely cover the cost of attendance, and are not always renewable.

You have earned your place here, and we hope you join the Penn State Nursing family. However, no institution or program is worth putting yourself into overwhelming debt. There are multiple paths to nursing—CNA and LPN, diploma RN, and associate ASN programs with a plan to complete a BSN as time and finances permit are all viable, and many institutions are less expensive than Penn State. Penn State Commonwealth Campuses offer lower tuition and may be a more affordable option.

Use this tool (www.tuition.psu.edu/CostEstimate.aspx) to determine your first-year cost of attendance, and know how you will pay for your education before committing. We would rather talk you out of attending Penn State than have you saddled with crippling debt; your peace of mind and financial stability are more important than any program!

How will transfer credits and Advanced Placement (AP) credits fit into the nursing curriculum?

Transfer credits and AP credits may sometimes be applied to general education or elective credits. Admissions determines whether credits from other institutions will be accepted. The Nese College of Nursing determines how these credits are applied towards your degree. These credits will not impact your GPA at Penn State. They have the potential benefit of decreasing course load, which could provide students with the opportunity to explore a minor or other interests if desired. *However, please note that a tuition increase takes place when a student reaches 59.1 credits. Students bringing in credits may reach this tuition "bump" earlier.* Please communicate with the Academic Advising Office if you plan to bring in college-level credits. Additional information on credit for AP exams can be found at www.admissions.psu.edu/academics/credit/ap.

What and where are clinical courses?

Clinical courses typically involve a lecture and a hands-on component in a clinical setting. Clinical sites may be anywhere within a 50-mile radius of campus. Clinical experiences and schedules vary each semester, but are typically offered in six- to eight-hour blocks between 6:00 A.M. and 9:00 P.M. Monday through Friday (yes, our students have Friday clinical and classes). To avoid conflicts, students should not plan work or other commitments until their course and clinical schedules are complete. Nursing students participate in nearly 900 hours of diverse and educationally rewarding clinical experiences. University Park students spend one or more years (third and/or fourth year) at the Hershey Medical Center Campus. Our state-of-the-art simulation labs provide confidence-building practice to students beginning your third semester. Our labs include:

- Health Assessment/Skills Lab
- Home Health
- Critical Care
- Pediatrics
- Maternity/Newborn
- Advanced Practice Primary Care Lab

Examples of B.S.N. Clinical Sites

- Geisinger-Lewistown Hospital
- Mount Nittany Medical Center
- Penn State Milton S. Hershey Medical Center
- Philhaven Behavioral Healthcare
- The Meadows Psychiatric Center
- University of Pittsburgh Medical Center (UPMC) Altoona
- Doctors' offices
- Schools, non-profit and community agencies, or prisons
- Assisted living facilities

Will I need to have my own car?

Nursing students must have their own transportation starting in the spring semester of the second year.

Students are responsible for getting themselves to their clinical sites throughout the Nursing Program.

Clinical Experiences: Car and Driver's License

Travel to clinical settings and capstone sites is necessary and not provided by the college, as cost and logistics would be unmanageable. Clinical can be assigned anywhere within a 50-mile radius of University Park (or Hershey, during the Hershey year). **All students must possess a valid driver's license and have full access to a vehicle by their fourth semester when clinical begins in nursing homes. Nursing will not accommodate clinical setting requests as a result of students not having transportation.** Timing and distance to clinical sites may prohibit the use of public transportation. If you anticipate difficulty bringing a vehicle to campus for your use, you may want to consider a college location where public transportation can meet your clinical transportation needs.

Capstone

Nurses work all times of day and year, including evenings, overnights, weekends, and holidays. Capstone is another privileged opportunity not offered by all nursing programs. All fourth-year nursing students will be assigned to a capstone experience in spring where they will work nursing shifts under the supervision of a nursing preceptor. **If the preceptor works weekends, nights, or evenings, you will work weekends, nights, and evenings to complete your capstone hours.** As the College of Nursing is only able to offer capstone sites where we have willing preceptors, we cannot guarantee or change your assigned capstone site or preceptor to avoid working hours outside of the typical business week.

Will I go to Hershey Medical Center?

Hershey Medical Center (HMC) is a Level I Trauma Center for both adult and pediatric populations. Nursing students at University Park are required to spend one academic year living and studying at HMC. In the second year, students are assigned via modified lottery to third or fourth year at HMC. Housing is reserved for nursing students at Hershey.

Hershey is non-negotiable.

Hershey is a wonderful experience and a privilege afforded to University Park students. Most of our students are excited about their Hershey year and the associated professional and career opportunities. Additionally, the Hershey clinical component of the University Park nursing program allows us to admit cohorts of 160-170. Without Hershey, we would accept half that number, meaning that half of the students here today would not have offers of admission.

Before committing to Penn State nursing, understand that **spending a full academic year at Hershey Medical Center is not negotiable. It is a required part of our program.** As the Hershey year approaches, students may feel some anxiety about leaving the University Park campus. This is normal and expected. Several majors require extensive off-campus experiences, including student teaching, internships, co-op, and study abroad. One huge difference between those experiences and the Hershey year is that nursing students are not going to Hershey alone. They go with half the cohort—over 70 other students! Further, we have an extensive support system of faculty and staff at Hershey, and students retain access to their academic and faculty advisers whether at University Park or Hershey.

Students are asked for their preference in the year they attend Hershey, but are not guaranteed their preference. We make every effort to accommodate as many students as possible, but ultimately the cohort must have half at University Park and half at Hershey in any given year. When a particular year is oversubscribed, we move to a lottery process to even out the cohorts. Third year at Hershey is typically the oversubscribed option.

Nursing allows for curricular exceptions to the Hershey requirement, which is limited to ROTC and NCAA scholarship athletes who cannot meet their dual obligations otherwise (this does not include cheerleading, the Lionettes Dance Team, club sports, or the Blue Band). **Nursing does NOT allow for personal exceptions, including mental health, family, employment, or other circumstances.** Nurses must be flexible and adaptable, able to connect with a variety of people, and feel comfortable in various settings. Students whose mental health concerns are significant enough to preclude Hershey can consider a leave of absence to focus on their health and well-being, which is always the priority, and may return to the program once stable. Students who do not feel prepared to embrace the Hershey experience may want to consider another PSU campus, or another college major or institution.

NEW!! Students can select two years at Hershey when you apply!

Beginning with the 2025 application year, students will be able to select a 2+2 option on the Nursing application. With this option, years one and two will be completed at University Park while years three and four will be spent entirely at the Hershey Medical Center and surrounding area. Lock in the Hershey Experience x2 from the beginning and set yourself up for an incredible nursing education journey!

Hershey Assignment & Lottery Process

Please note that the Hershey assignment process is subject to change without notice. Students are sent a survey in May or June after their first year in nursing. Students may submit their first choice of living at Hershey in third year, fourth year, or both years. Students who submit multiple surveys will be held to the most recent survey time stamp. If student selections do not naturally split the cohort in half, the Office of the Undergraduate Dean utilizes a random lottery to move identified students from the larger group to the smaller. **Hershey year assignments are never guaranteed, and students must be prepared and willing to attend Hershey whenever they are assigned.** Changes in assignment may only be accomplished by swapping with a student who has an alternate assignment and money, goods and services may never be exchanged as part of a Hershey assignment swap.

Are meal plans and housing offered while I'm at Hershey?

Students are responsible for providing their own meals during their time at Hershey. There is not a meal plan option. Grocery stores are within a five- to ten-minute drive. Penn State provides apartment-style housing that is a short walk to the Hershey Medical Center. There are four nursing students in each apartment. Each student has his or her own bedroom and shares a common bathroom, kitchen, and living area. Students also have the option to live off-campus if desired. There is no additional fee for parking for students at Hershey.

Am I able to complete the Pre-med program with the nursing degree?

With careful planning and collaboration with the program of interest, it may be possible to complete the Pre-medicine curriculum concurrent to the Nursing Program. The traditional medical model approaches patient health from a disease concept model, while nursing takes a more holistic approach that focuses on patient wellness, support systems and resources. Because the Nursing Program is highly structured, students should discuss any plans for the Pre-medicine curriculum with their Academic Adviser as soon as possible.

Am I able to complete a minor/certificate with the nursing degree?

With careful planning and collaboration with the program of interest, it may be possible to complete a minor or certificate concurrent to the Nursing Program. Because the Nursing Program is highly structured, students should discuss any plans for a minor or certificate with their Academic Adviser as soon as possible. Nursing students must be prepared to prioritize the nursing curriculum over minor or certificate coursework and for the possibility that this may mean *not* completing the entire minor or certificate if it interferes with nursing coursework or clinical rotations.

We are often asked for "typical" minors and certificates completed by Nursing students. Typical minors include [Human Development and Family Studies](#) (HDFS), [Child Maltreatment and Advocacy](#) (CMAS), [Psychology](#) (PSYCH) or [Psychological Sciences](#) (PSYSC). Gaining popularity are [Bioethics Medical Humanities](#) (BMH) and [Global Health](#) (GLBHL), and The Nese College of Nursing offers two Nursing Certificates, [Nursing Forensics](#) and [Nursing Informatics](#), through the World Campus. However, students may complete any minor or certificate available at University Park, provided they meet minor requirements. Work with your adviser to plan out minor or certificate coursework in the nursing curriculum.

Can I specialize?

Upon graduation, Penn State entry-level nurses are prepared to practice as generalists and can work in any number of settings. True specialization requires graduate education.

Are there any social/professional groups for Nursing students?

Penn State offers over 1,200 student groups and organizations. Nursing-specific organizations are listed below. **Students are strongly encouraged to participate in SNAPS in addition to any other organizations that resonate with their interests.** Students are also encouraged to moderate their extracurricular activities, including THON participation, to prioritize their academic performance.

Ross and Carol Nese College of Nursing Student Ambassadors (CONAm)

This student group represents the Ross and Carol Nese College of Nursing and provides a student perspective at information and recruitment events. Ambassadors embody Nursing students of varied interests, activities and backgrounds and volunteer to share their love of Penn State and all things nursing.

Men in Nursing

Men in Nursing facilitates opportunities for networking and mentoring and assists interested males with information about the nursing major. Additionally, Men in Nursing actively promotes men's health, influencing factors that affect men as nurses, and joins with all nursing students and nurses in providing services and support for the underprivileged. For more information or to join, go to [Men in Nursing](#).

The Multicultural Student Nursing Association (MSNA)

MSNA was formed to provide an inclusive environment to multicultural students and allies in the Nursing major. MSNA coordinates social events and educational opportunities that create a safe space for students to strengthen community and develop professional skills for career success. [MSNA Article](#)

Diversity, Inclusion, and Advocacy for Minority Nursing Students (DIAMNS)

DIAMNS aims to create a specialized space for diverse minority nursing students to explore and express their intersectional identities in a supportive environment. DIAMNS specifically plans to emphasize advocacy for underrepresented students, by providing mentorship, resources, and a support system to navigate the unique challenges they may face in the healthcare field.

The Art of NurSing

The Art of NurSing is a choir of nursing and allied students who hope to bring joy and healing to the elderly and sick through song. We value the arts and humanities in our own lives and as a means of connecting with the same patients/residents we care for during our local clinical rotations.

Sigma Theta Tau

Students with outstanding records of scholarship and leadership are invited to join Sigma Theta Tau, the international honor society for nursing. Penn State is home to the Beta Sigma chapter, one of over 150 chapters of Sigma Theta Tau at colleges and universities worldwide.

SNAPS

Each campus has a chapter of the Student Nurses Association of Penn State (SNAPS), the state-approved organization of the National Student Nurses Association (NSNA). Activities include professional development, community service, outreach, and social activities. See www.nсна.org or www.snap.psu.edu for more information.

Can I study abroad?

Nursing students who wish to study abroad have the following options:

- Penn State Nese College of Nursing faculty offer short-term international experiences called “Embedded Programs.” Experiences vary each year. Students are sent information on available opportunities for the upcoming academic year.
- Global Penn State offers experiences during the summer or other breaks. Information can be found at www.global.psu.edu.
- Other opportunities are available through student organizations, such as the PSU Global Brigades. Information on this organization can be found at www.sites.psu.edu/globalbrigades.
- One minor that Nursing students interested in studying abroad may want to consider is the Global Health Minor. This minor allows students to explore health issues and challenges affecting populations across the globe and incorporates a 6-week international “Global Health Fieldwork Experience” course. More information can be found at www.hhd.psu.edu/bbh/undergraduate/global-health-minor.

Due to the sequenced nature of the nursing curriculum, nursing students can complete traditional study abroad only during the summer or other breaks. Students who complete traditional study abroad programs during fall or spring semesters will find themselves a year behind in the curriculum.

How will Penn State prepare me for the NCLEX-RN exam?

The National Council Licensure Examination for Registered Nurses (NCLEX-RN) is the national licensing examination for all registered nurses. Passing this exam after graduation is the final step in becoming a nurse. Penn State prepares nursing students early for their licensing examination by introducing Assessment Technologies Institute (ATI) Nursing Education beginning second year. The ATI software incorporates practice exams, individualized coaching, and focused NCLEX-RN preparation. Additional information about ATI Nursing Education can be found at www.atitesting.com/Home.

The Pennsylvania Department of State and the National Council of State Boards of Nursing report national and state annual first-time NCLEX pass rates. The national average first-time NCLEX pass rate in 2024 is currently 92% ([NCSBN 2024 NCLEX Pass Rates](#)) while the Penn State rate is 98%.

What other supports does Nursing offer to students?

Just as you're invested in your education, we are invested in your academic, personal, and professional success. In addition to the technology, clubs & organizations, student services and resources that Penn State offers to all students, Nese College of Nursing students have access to:

Academic Advising: You will be assigned an academic adviser at New Student Orientation (NSO) and will remain with them through graduation. Advisers are similar to your high school counselors, but different in that you are expected to take responsibility for regularly checking in with your adviser. At minimum, plan to schedule an appointment with your adviser once per semester for an academic and scheduling check-up, but your adviser can also explain and facilitate Penn State policy and processes, help you connect to resources, advocate for and support you. Advisers offer weekly Office Hours, regular Walk-In/Zoom-In hours at key times of the year, and group advising. Our advisers' backgrounds are in counseling and education.

Faculty Advising- In your third year, you will also be assigned to a nursing faculty adviser. Your faculty adviser may be based at Hershey or at University Park and is available to discuss career planning and professional development. In your professional development coursework, you will create your resume for your job search, and participate in a brief mock interview.

Academic Success Coaches: Students may contact them on their own and may also be referred by faculty or advisers. The Success Coach can help with time management, study skills, and course content, in addition to referring you to other resources.

Career Fair- A Nursing Career Fair is sponsored each fall for Nursing students to connect with recruiters and companies from Pennsylvania and some surrounding states. Additionally, Penn State's Bank of America Career Services Office hosts career fairs each semester. All these events offer internship/externship and job opportunities.

Alumni Mentoring Program- Rising third-year students (juniors) may apply for the Alumni Mentoring Program to be matched with a Nese College of Nursing Alumnus through the students' graduation. Mentoring pairs are required to attend a kick-off event and meet at least once per month with at least one in-person meeting per year.

CONversations with Dr. Brown- These monthly, open-forum Zoom-In sessions with our Associate Dean for Undergraduate Programs and the University Park and Hershey Nursing Programs Coordinators Dr. Nelson and Dr. Barton provides updates on the Nursing program, respond to questions, and elicit your thoughts on programmatic topics, students' needs and concerns, and any other topics that arise. CONversations are a fantastic way to connect with Nese leadership and have your voice heard!

First-Year Seminar (Nursing FYS/NURS 100)- Nursing FYS introduces students to the University, the Nese College and the profession of nursing. Students are introduced to Penn State and nursing expectations, policies, and resources to prepare them for the rigor of the nursing curriculum and nursing practice. Course content promotes human health and initiatives that enhance quality of life. FYS offers a small class size and a safe environment for students to ask questions and meet other students in the nursing major.

What does a typical day look like for a Nursing student?

Our students participate in Greek life, ROTC, Athletics, Schreyer Honors College, and numerous clubs, groups, and activities. Many hold part-time jobs or volunteer while in school. Setting realistic involvement goals and managing time wisely are key.

Ellen

Ellen is a first-year student involved in Nese CON Ambassadors and SNAPS.

8:30am wakeup, 8:30am-10:00am	Get ready, breakfast, relax, last minute studying
10:00am-11:30am/12:30pm	First class or two of the day
11:30am-1:00pm	Gym for a lift or cycling class
1:00pm-1:30pm	Lunch (sometimes studying) with friends at the HUB
1:30pm-2:30pm	Study/homework
2:30pm/4:00pm-3:30pm/6:00pm	Last class/lab
6:00pm	Dinner
7:00pm	Club meetings (if there are)
7:00pm-11:30pm/12:00am	Studying, homework, reviewing notes
12:30am-1:00am	Bedtime

Freda

Freda is a second-year ROTC student who also finds time for Nese CON Ambassadors, SNAPS, Christian Organizations, and THON.

4:30am wakeup, 5:30am-7:00am	ROTC physical training
6:30am wakeup	If no ROTC, personal workout, get ready/eat
9:00am-11:00am	Class
11:00am-1:25pm	Study, eat, meetings
1:30pm-3:30pm	Class
3:30pm-6:00pm	Study, meetings
6:00pm-8:00pm	Clubs/Organizations
9:30pm-12:00am	Bedtime depends on ROTC physical training in the morning

Harley

Harley is a third-year student who is involved in SNAPS, Club Gymnastics, and Nese CON Ambassadors. She is also a Research Assistant and has a job as a hostess. She's included a class day and a clinical day.

Class Day	
7:00am	Wake up and review before class and some breakfast!
8:00am-10:00am	First class of the day
10:30am-11:30am	Gym
12:00pm-1:00pm	Lunch and shower
1:00pm-3:00pm	Second class
4:00pm-8:00pm, 4:00pm-6:00pm	Work or study
6:00pm	Dinner
7:00pm-8:00pm	Club meetings if any
9:00pm-12:00pm	Homework and hang out with roommates!
12:30am	Get ready for the next day and sleep!

Clinical Day	
5:30am	Wake up for clinical! Get ready and have breakfast
6:30am-12:30pm	Clinical
1:00pm	Lunch
2:00pm- 4:00pm	Workout and shower
3:00pm-6:00pm	Homework and studying
6:00pm	Dinner
7:00pm	Meetings if any
8:00pm-11:00pm	Studying and hanging out with roommates
11:30pm	Get ready for the next day and sleep!

Michael

Michael is a fourth-year student who is involved in SNAPS and Nese CON Ambassadors. He's included a class day, clinical day, and capstone day.

Class Day	
8:30am-10:00am	Wake up, get ready, breakfast, relax, light studying/work, head to class
10:00am-12:00pm	First class
12:00pm-1:00pm	Lunch
1:00pm-3:00pm	Second class
3:00pm-6:00pm	Study, homework, gym
6:00pm-7:00pm	Dinner
7:00pm-8:00pm	Club meetings (if there are any)
8:00pm-9:30pm	Last studying, homework, etc. for the day
9:30pm-12:30am	Unwind, read, watch TV, hang with friends, shower
12:30am-1:30am	Bedtime
Clinical Day	
5:30am-6:30am	Wake up, get dressed/ready for day, breakfast/coffee, walk to clinical
6:30am-12:30pm	Clinical
12:30pm-2:00pm	Lunch, post-clinical conference
2:00pm-3:00pm	Unwind from clinical, relax
3:00pm-6:00pm	Study, homework, gym
6:00pm-7:00pm	Dinner
7:00pm-8:00pm	Club meetings (if there are any)
8:00pm-9:30pm	Last studying, homework, etc. for the day
9:30pm-11:30pm	Unwind, read, watch TV, hang with friends, shower
11:30pm-12:30am	Bedtime
Capstone Day	
5:45am-7:00am	Wake up, get ready for day, breakfast/coffee, head to capstone
7:00am-7:30pm	Capstone
7:30pm-8:30pm	Dinner
8:30pm-11:00pm	Unwind, read, watch TV, hang with friends, shower, get ready for bed
11:00pm-12:00am	Bedtime

Class sizes can vary from as few as 25 for English, Speech and Language classes, and Science labs to as many as 800 for large lectures such as Anatomy & Physiology. Nursing class sizes range from 8-10 in clinicals to 75-80 in lectures, with the entire cohort (150-160) coming together for second-year course lectures.

What graduate programs are available at Penn State?

Ph.D. and D.N.P. Programs:

- Penn State offers a B.S.N. to Ph.D. degree program for highly qualified students to pursue doctoral study directly from their B.S.N. program. This program incorporates a Master of Science in Nursing (M.S.N.) degree, which prepares nurse scientists and clinical scholars to continue for the Ph.D. in Nursing. We also offer an M.S.N. to Ph.D. degree program for students with an M.S. degree. Nursing Ph.D. students may pursue one of our dual-title Ph.D. program in Nursing & Bioethics or Nursing & Clinical Translational Sciences.
- Our D.N.P. degree program online through Penn State's World Campus with two entry options: directly from the B. S.N., or post-M.S.N. The D.N.P is a professional, practice-focused doctoral degree with options in Nursing Leadership or Nurse Practitioner with options in Psych/Mental Health Nursing, Family Nurse Practitioner, Adult Gerontology Primary Care Nurse Practitioner, and Adult Gerontology Acute Care Nurse Practitioner.

M.S.N. Programs:

- Penn State offers an M.S.N. degree program online through Penn State World Campus with two Advanced Role options: Nurse Administrator and Nurse Educator.

A B.S.N. is required for admission to a graduate program of study in Nursing at Penn State. Graduate-level nursing certificates are also available. Additional information on the graduate programs can be found at www.nursing.psu.edu/graduate.

Total Credits:	13	Total Credits:	13

See IMPORTANT NOTES on back

See IMPORTANT NOTES on back

See IMPORTANT NOTES on back

IMPORTANT NOTES

1. GWS, GHW, GQ, GN, GA, GH, and GS are attributes used to identify General Education requirements.
2. **Bold Type** indicates courses requiring a quality grade of C or better. All **NURS** courses define “C” as 75% or higher. See course syllabi for grade equivalents in other courses. See additional notes below.
 - a) See Nese College of Nursing Grading Scale and Academic Progression Policy in the B.S.N. Nursing Handbook at <https://www.nursing.psu.edu/student-handbooks/>
 - i. Clarification of Nursing Progression Policy: Each prerequisite requirement permits two attempts. For example, STAT 200 and STAT 250 are the same prerequisite requirement; CHEM 130 and CHEM 110/111 are the same prerequisite requirement, etc.
 - b) Most NURS courses, major requirements/prerequisites, GQ and GHW are all “C”-required courses. Elective courses, GA, GH, and the NURS 100 FYS course are not “C”-required.
3. *Students should consult with their Academic Adviser to select appropriate courses. Within the 30 credits of required General Education Domain courses, students must complete 6 credits of Integrative Studies (Interdomain, e.g., “dual- domain”) courses. Interdomain courses are designated with suffixes N (Interdomain) or Q (Honors Interdomain).
4. In addition, students must complete at least 3 credits each of single-domain General Education Arts (GA) and General Education Humanities (GH) outside of Integrative studies. Effective Summer 2018+.
5. BIOL 161 and BIOL 163 must be passed with a quality grade of C or better to progress to 2xx-level nursing courses. All 2xx clinical courses must be passed with a C or higher to progress to 3xx clinical courses, and all 3xx clinical courses must be passed with a C or higher to progress to 4xx clinical courses. Students who are unsuccessful in one or more courses will fall out of sequence and receive an individualized plan of study.
6. **Scheduling Patterns:** NURS courses are offered only in the semester indicated with the following exceptions: NURS 200W is generally offered spring only, but an Honors section is offered in fall semester which is sometimes opened to non- Schreyer students to fill. NURS 415 and 420 may be taken in fall OR spring of fourth year.
7. **Program Notes:** Third and fourth years include 6-12 hours of clinical experience per week. Students studying at UP will spend one (either third or fourth year, selected through a modified lottery) year or two years (years three and four) in residence at Hershey Medical Center (HMC). Otherwise, students at all campuses will attend clinicals within 50 miles of their campus location.
8. **Academic Advising Notes:** MATH 21 (or an ALEKS score of 30+) is a prerequisite for CHEM 130. MATH 22 (or an ALEKS score of 46+) is a prerequisite for CHEM 110. If a student places higher than MATH 22 (score of 61+) on the ALEKS Assessment, any GQ may be scheduled. Students who complete Calculus in high school receive an ALEKS of 101 and may schedule any GQ.
9. **Italic Bold Type** indicates courses requiring a quality grade of C or better and that satisfy both major and General Education requirements. Underlined courses are common abbreviations or names for courses.
10. “US, IL”, and “US; IL” are attributes used to designate courses that satisfy University United States/International Cultures requirements. These University requirements are integrated into the Nursing curriculum (NURS 250 and NURS 415) and do not require additional courses to be taken.
11. “W” is the attribute used to designate courses that satisfy the University Writing Across the Curriculum requirement.
12. Schreyer Honors College first-year students at University Park take ENGL 137H/CAS 137H in the fall semester and ENGL 138T/CAS 138T in the spring semester. These courses carry the GWS designation and replace both ENGL 15/ENGL 30H and CAS 100A/CAS 100B/CAS 100C. Each course is 3 credits.

Accepted Student Program

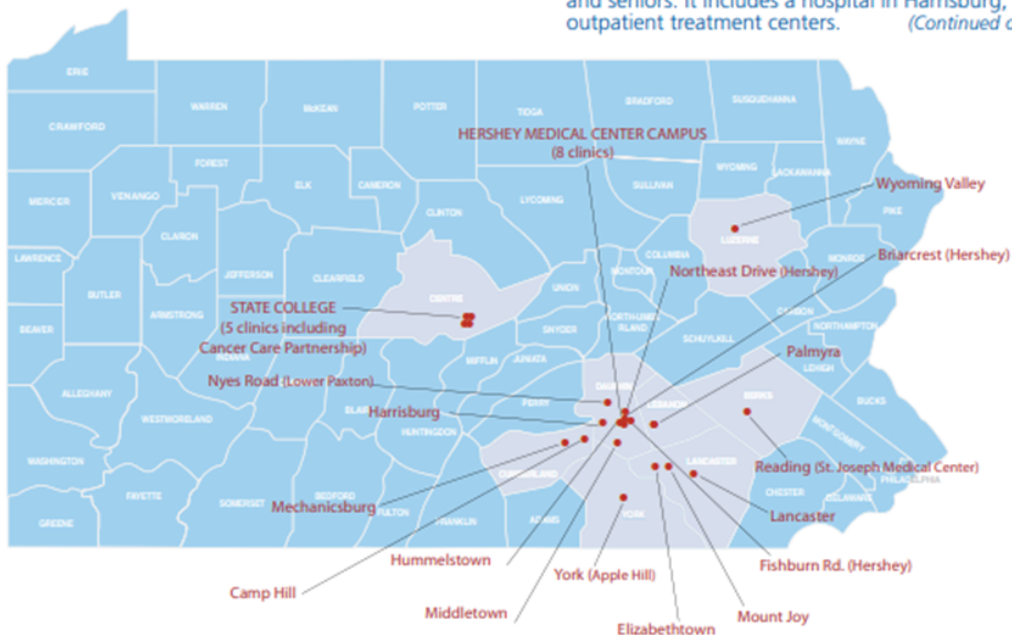

About Us

PENN STATE HEALTH MILTON S. HERSHEY MEDICAL CENTER

- Founded in 1963 through a gift from The Milton S. Hershey Foundation, Penn State Health Milton S. Hershey Medical Center is one of the leading teaching and research hospitals in the country.
- Six institutes: Penn State Cancer Institute, Penn State Heart and Vascular Institute, Penn State Bone and Joint Institute, Penn State Neuroscience Institute, Penn State Clinical and Translational Science Institute, and Penn State Institute for Personalized Medicine.
- 12,000+ employees and a combined budget of approximately \$1.7 billion.
- Three times designated as a Magnet® hospital, and achieved highest level of recognition for nursing excellence from the American Nurses Credentialing Center.
- Second in the nation to use a new robotic surgical device for head and neck surgery. The Flex Robotic System makes it possible to easily access locations in the body that were previously difficult or impossible to reach using minimally invasive techniques.
- Image-guided radiation treatment services, using the advanced technology of our Trilogy™ system and Gamma Knife®, represent the region's first-of-its-kind collaborative approach between radiation oncology and neurosurgery.

- The University Technology Center opened in 2016, greatly expanding Penn State Health's ability to gather and analyze big data that can serve as the foundation for precision medicine and population health.
- The only medical facility in Pennsylvania to be accredited as both an adult and a pediatric Level 1 trauma center.
- Life Lion Critical Care Transport is accredited by The Commission on Accreditation of Medical Transport Systems (CAMTS), a prestigious accreditation held by only six other services in Pennsylvania.
- More than 1,100 primary and specialist physicians and advanced practice clinicians care for patients through the Penn State Medical Group, which includes 63 specialty practices located at 24 clinics in eight central Pennsylvania counties.
- An 98-bed rehabilitation hospital in partnership with Select Medical combines the convenience and comfort of community-based care with clinical expertise and national experience in comprehensive medical rehabilitation, transitional care, outpatient services and wound care.
- Pennsylvania Psychiatric Institute, a partnership with PinnacleHealth, creates specialized mental health treatment programs for children and adolescents, adults and seniors. It includes a hospital in Harrisburg, and two outpatient treatment centers. *(Continued on next page)*

FAST FACTS (FISCAL YEAR 2017)

Annual admissions Hershey Medical Center and Children's Hospital	29,098	Licensed adult beds	423	Medical Group practices	63
Annual admissions Psychiatric Institute	2,237	Licensed pediatric beds	128	Life Lion helicopter transports	1,174
Annual admission Rehab Hospital	1,610	Licensed adult psychiatric beds*	80	Life Lion critical care ambulance transports	741
Annual outpatient visits	1,116,012	Licensed pediatric psychiatric beds*	16	Faculty physicians/advanced practice clinicians	1,300+
Annual emergency visits	74,526	Licensed adult rehab beds**	88	Residents and fellows	586
Births	2,074	Licensed pediatric rehab beds**	10	Nurses	2,547
Total surgical cases	33,145	Neonatal ICU and Critical Care Nursery beds	42	Total staff	12,000+

* at Pennsylvania Psychiatric Institute
 ** at affiliated rehabilitation hospital

Penn State Hershey Medical Center encompasses several specialized institutes and departments:

■ **Penn State Hershey Children's Hospital**

The region's only children's hospital fully equipped to treat the most severely ill and injured children with both a Level IV neonatal intensive care unit and a Level I pediatric trauma hospital. Named a national leader in eight pediatric specialties by U.S. News and World Report's 2015-2016 Best Children's Hospital rankings.

■ **Penn State Hershey Cancer Institute**

The region's only comprehensive cancer center, with access to internationally recognized cancer specialists and scientists delivering a multidisciplinary approach and advanced medical technology. Earned the Outstanding Achievement Award from the Commission on Cancer of the American College of Surgeons.

■ **Penn State Hershey Heart and Vascular Institute**

Central Pennsylvania's only heart transplant center and the regional center for extra corporeal membrane oxygenation (ECMO).

■ **Penn State Hershey Neuroscience Institute**

Joint Commissioned-certified Comprehensive Stroke Center. Home to the only three board-certified pediatric neurosurgeons between Pittsburgh and Philadelphia.

■ **Penn State Hershey Bone and Joint Institute**

Leader in the care of patients with common or complex disorders, with specialists in orthopedics, sports medicine, spinal disorders, hand surgery, metabolic bone disease and osteoporosis, rheumatology, radiology, chronic pain management and therapy services.

■ **Penn State College of Medicine**

The College of Medicine and the School of Nursing collaborate on a growing interdisciplinary curriculum that allows medical, physician assistant and nursing students to learn some clinical skills together, facilitating better communication between the professions.

■ **Research at Penn State Hershey**

Through numerous projects, PSU Hershey boasts more than \$98.3 million in funded medical research annually.

For more information on any of the topics listed in this publication go to PennStateHershey.org.

PennStateHershey.org/followus

Our social media outlets help you stay current with health care news from Penn State Health.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.

B.S.N. students in the General Nursing option have the opportunity to study abroad through programs offered by the Nese College of Nursing and related disciplines. Due to the sequential nature of the Nursing curriculum, students who wish to stay “on time” with their program may study abroad only during the summer or semester breaks, or with an embedded program of shorter duration. There are numerous ways to complete a study abroad experience.

- An embedded program is a course taken at a Penn State campus that includes an international, credit-bearing travel component. The embedded programs described below are **examples** of programs currently or previously offered through Penn State. Program availability varies from year to year. Students may earn credit for participation in some of the programs. In the rare event that programs are oversubscribed, students are selected by lottery. Costs range from \$1,500-\$8,000 or more depending upon destination, credits allotted, and duration of the program.
- Students can consider joining the Penn State chapter of Global Brigades, the world’s largest student-led global health and sustainable development organization. Global Brigades offers Medical, Public Health, and other chapters that are relevant for Nursing students. Trips are offered all over the world and can focus on water, the environment, nutrition, education, or health care. For more details, visit <https://fundraise.globalbrigades.org/chapters/university/pennsylvania-state-university>
- Other summer international experiences can be arranged through Global Penn State. More information can be found at <https://global.psu.edu/students>

NOTE: Students who pursue abroad experiences during the full fall or spring semesters will find themselves a year behind in the curriculum.

Chile Students will spend two weeks in Santiago observing and touring community health sites, such as a rural health care clinic, a local public and private hospital, and an older care home. These experiences include a mix of middle class and less affluent citizens. Students will come away with a realistic portrayal of a typical Chilean healthcare experience and will participate in both classroom and observed clinical experiences. They will be hosted by the Escuela de Enfermería (School of Nursing) at the Universidad de Santiago de Chile.

Honduras In collaboration with the MAMA Project, Inc., Penn State Nursing students, primarily juniors and seniors, serve native Hondurans by working in a nutritional rehabilitation center. During this seven-day program, students will assist with medical, dental, and construction brigades and encourage micronutrient, deworming, and vitamin A promotion. Students earn credit for a three-credit course. Visit <https://schuylkill.psu.edu/honduras> for more information.

Costa Rica This one-week program explores the health care system in Costa Rica. Students meet with policy makers, administrators, physicians, and other providers of care to learn how Costa Rica is able to achieve impressive health outcomes. Students analyze information obtained on the trip and develop a presentation upon return to the United States. Students earn credit for a three-credit course.

Cuba This experience to Havana, Cuba is organized through CIEE, an outside travel organizer, and led by Penn State Nursing faculty. A minimum of ten Nursing students participate in this eight-day program exploring community and family health nursing in Cuba through observational clinical experiences, cultural activities, and lectures.

Hong Kong A limited number of seniors are selected to participate in this ten-day spring semester program. This experience enhances students' abilities to experience a different culture and learn about the health care system, Eastern medicine, and the nursing education system in Hong Kong. Students will participate in both classroom and clinical observations.

Thailand Arrangements are being made for a trip to Thailand.

For additional information on Nese College of Nursing travel opportunities, contact Natalie Barlick-Reed (nab5316@psu.edu), Global Studies coordinator for the Nese College of Nursing. Visit <https://www.nursing.psu.edu/study-abroad/> regularly for exciting opportunities to learn and travel!

SNAPS

The Student Nurses' Association at Penn State (SNAPS)

WHAT'S SNAPS?

SNAPS is an award-winning preprofessional organization open to all nursing students at Penn State that provides professional development and service opportunities. SNAPS is also actively involved on the state and national level, attending conventions and presenting nursing legislation.

HOW TO JOIN

- *Attend bi-weekly meetings and participate in SNAPS events.*
- *Follow SNAPS on Instagram (@snappennstate).*
- *Check out our website snap.psu.edu.*

LEADERSHIP

- *Represent Penn State at state and national conventions.*
- *Serve in Leadership roles as an officer at University Park, Hershey, or on the state and national level.*
- *Attend SNAPS events such as our career fair and guest speaker series.*

COMMUNITY SERVICE

Serve the local Penn State community through various events and programs.

- *Red Cross Blood drives*
- *Sending care packages and letters to military troops*
- *Sexual assault clothing drive*
- *Spending time with residents at Juniper Village Senior Living*
- *Participating and raising funds for the Walk to End Alzheimer's*
- *Community health fairs*

SOCIAL

- *Meet lifelong friends in your nursing cohort.*
- *Seasonal activities such as pumpkin picking and formal.*
- *Join our mentor/mentee program to connect with an upperclassman for advice and tips.*

THON

- *THON is the largest student-run philanthropy.*
- *Throughout the year help raise money for our THON families so they never have to pay a single bill.*
- *Our THON partner is Club Kinesiology.*
